

4/5/20 Hello everyone!

It was wonderful to speak with you last week. Hearing your voices has made me miss you all even more, but I was glad to hear that you are all doing well and keeping busy. I was blown away by how creative you have been at home with your learning. A huge well done!

Some of you have been busy exercising in your garden or cycling while some of you have been artistic, painting, drawing and making cards, and even making a fairy garden and a farm! I also found out that a few of you have been camping in your gardens as the weather has been sunny. **How exciting! A few of you have been curious little scientists too, doing experiments such as comparing corn flour and plain flour, or watching a caterpillar grow into a butterfly and learning about life cycles. Brilliant stuff!**

Happy
Birthday

I also want to say a big happy birthday to many of you, who have celebrated your birthdays or will be having your birthdays during this lockdown. Your birthday is still very special and I hope you enjoy it with your family.

Also, remember that tooth fairies are key workers too and they may be a little busy at the moment and some may be self-isolating. So, don't worry if they don't pay you a visit straight away.

I hope to be able to speak to you again soon. If I was not able to reach you over the phone last week, I would have left a message and will be in touch again. Meanwhile, keep up your super fun learning activities at home. I have included some more learning ideas for you to explore. **Have fun and remember to keep helping your parents at home too. Until we meet again, take good care of yourself.**

Mrs Hall x

p.s. A big thank you to parents too for continuing to support your child with reading and learning different skills at home. Make sure you look after yourself too.

History: May 8th VE Day

On 8th of May, we celebrate VE Day - or 'Victory in Europe Day'.

Can you find out why this is such an important day for us and most of Europe?

Who was the prime minister of the UK in 1945?.

Find out at least 3 more facts about VE day.

Art: Bunting

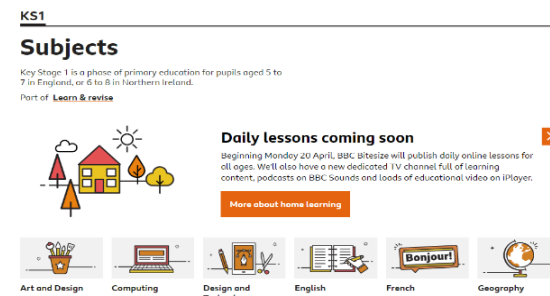

In 1945, on VE day, people celebrated by having street parties. We can't do that at the moment due to COVID19.

However, why not make your own VE day bunting to hang in your house or your garden to mark the event?

Daily lessons on BBC Bitesize

Continue to explore BBC Bitesize. The link is below.

<https://www.bbc.co.uk/bitesize/levels/z3g4d2p>

Maths

For those of you wishing to complete some maths while you are at home, please visit www.whiterosemaths.com. Cranwell Primary School follow White Rose Maths planning and when you visit the website you'll see they have provided some activities for you to share at home. If you click on Home Learning for Year 1 or Year 2, you will find useful resources, including a daily lesson and activity.

You can also continue to logon to Mathletics. Have fun! (log in information is in your red communication book)

Word problems: I have included word problems (separate sheets for year 1 and year 2). Please have a try and remember to show your working, step by step.

Music Makers

You must have been really busy during this school closure and I can't wait to hear all about it.

Can you describe the school closure and write a song about all the things you have been doing so far? You can add music to it, sing it or turn it into a rap!

Get creative! You can record your song and email it to our school to if you want to share it with us! Have fun!!

Education City

Education City (log in information is in your red communication book) There are fun interactive games for you to try here. If possible, I'd like you to attempt the English section for 20 minutes, and then choose other topics that might interest you.

Twinkl.co.uk

Twinkl is also offering free access to all during this school closure. Please attempt the SPAG summer term 1 activity for year 1/year 2.
